

PEOPLE AND PROCESS MODEL

"The challenge for every business is discovering how to converge people and process into one integrated solution."

Baer Institute converge Six Sigma and Lean process models with proven practices and tools from Organizational Development. This convergence provides an integrated solution that delivers a unique approach to business effectiveness.

"How do I structure my business to deliver excellent and sustainable results?"

We use your problems, your processes, and your data to develop new processes and structures to achieve superior results. Throughout the engagement, we focus on the most critical business challenges and opportunities.

Our expertise has delivered results you're looking for when applied to a wide range of business issues such as:

- Business Strategy
- Mergers and Acquisitions
- Corporate Restructuring
- New Market Expansion
- Process Improvements and Innovations
- Start-Ups

BUSINESS PROCESS PORTFOLIO

"A well developed business process becomes a corporate asset that can drive' competitive advantage." (Fredrick Taylor)

A **business process** is a series of tasks that produces a specific service or product for a customer. Processes can be visualized with a flowchart as a sequence of activities.

BAER's business process portfolio is a suite to help businesses plan, build, and manage process solutions through their entire lifecycle. BAER enables its customers to quickly realize tangible business benefits through: increased revenue, productivity, increased earnings, faster lead times, and improved quality.

Buy and Customize

We offer predesigned processes to give you a jump start to customizing a process that is unique to your industry and company. We develop new processes regularly as part of developing the company assets. We presently offer more detailed processes that are represented in the following high level process flow charts.
